Student teams pitch ideas to a panel and audience.
Online event
**Open · 12 seats left**

RSVP

## Sports Meet

Wednesday, 2 December — Sports Complex
A campus-wide day of friendly sporting competitions.
In-person event
**Open · 18 seats left**

RSVP

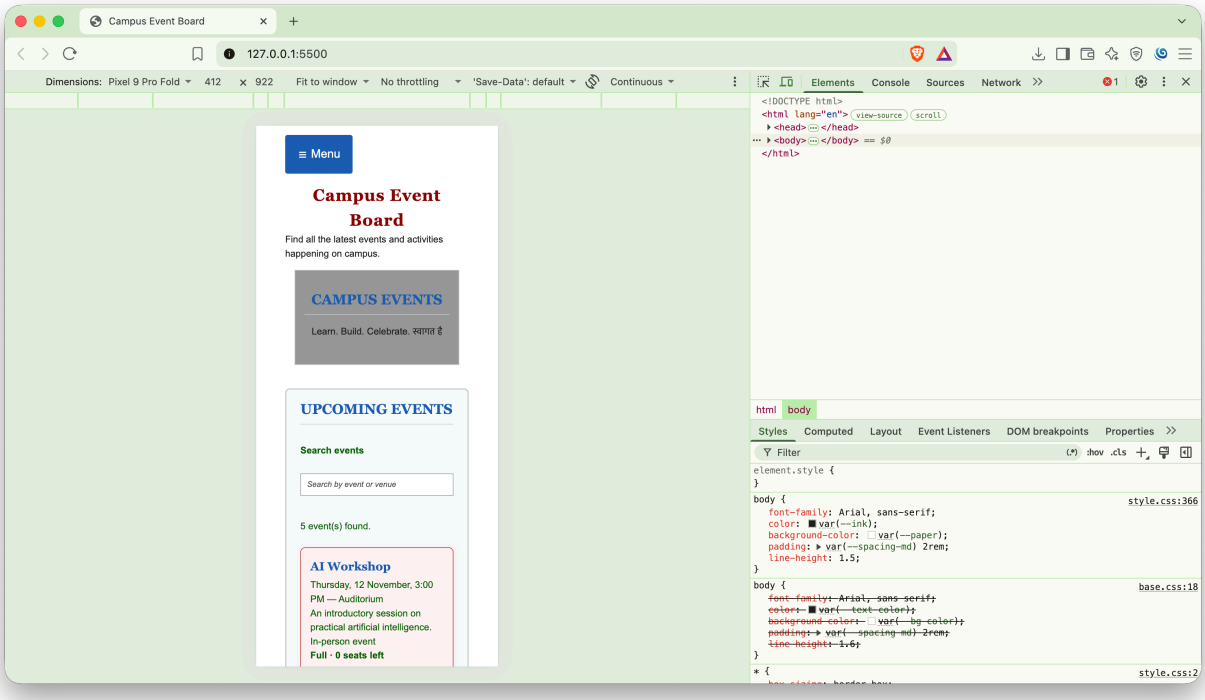

### Screenshot 4: Search Functionality

Demonstrates event searching. The search term “fest” is entered, and the list is filtered to show the matching Cultural Fest card.

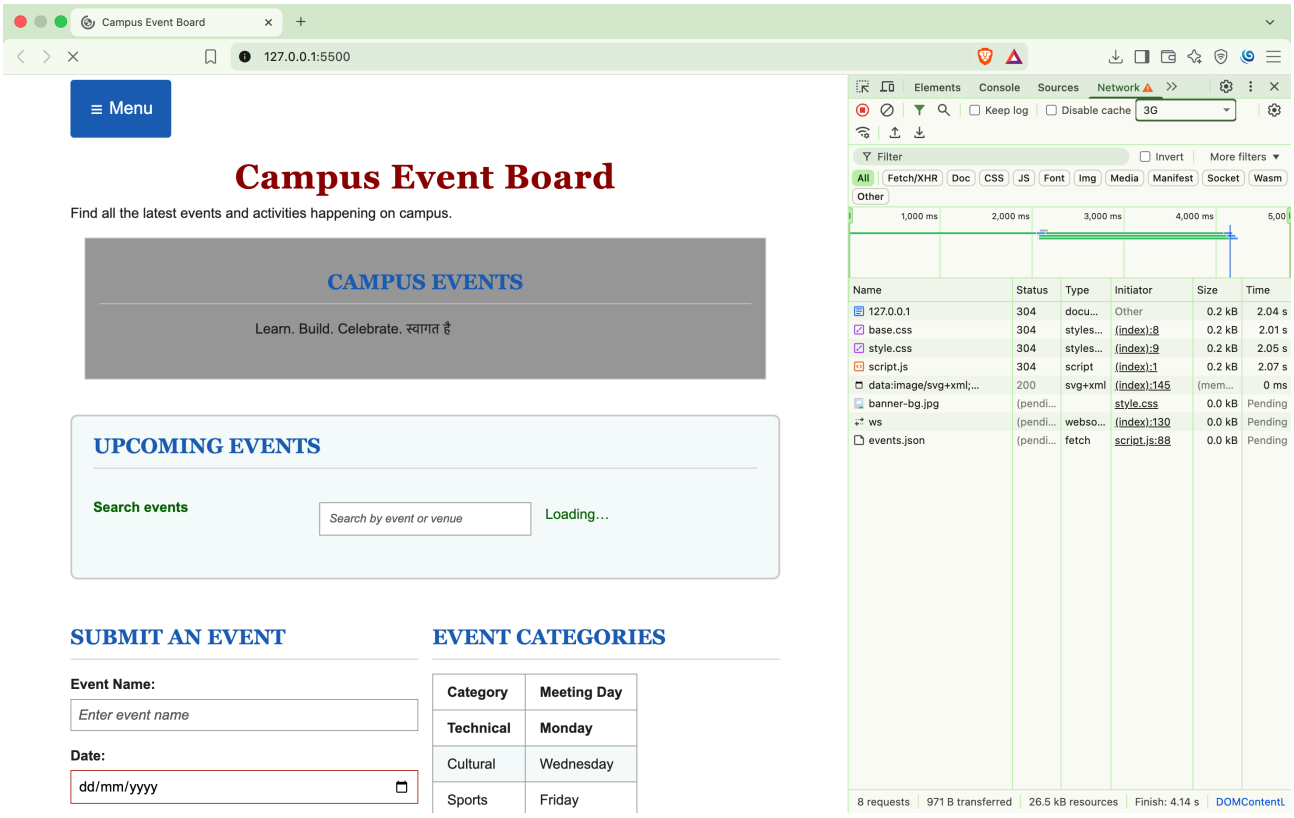

## Screenshot 5: Responsive Event Board View

Shows the Event Board in a narrow/mobile-style browser viewport with the navigation menu and page sections visible. Developer Tools are also open alongside the page.

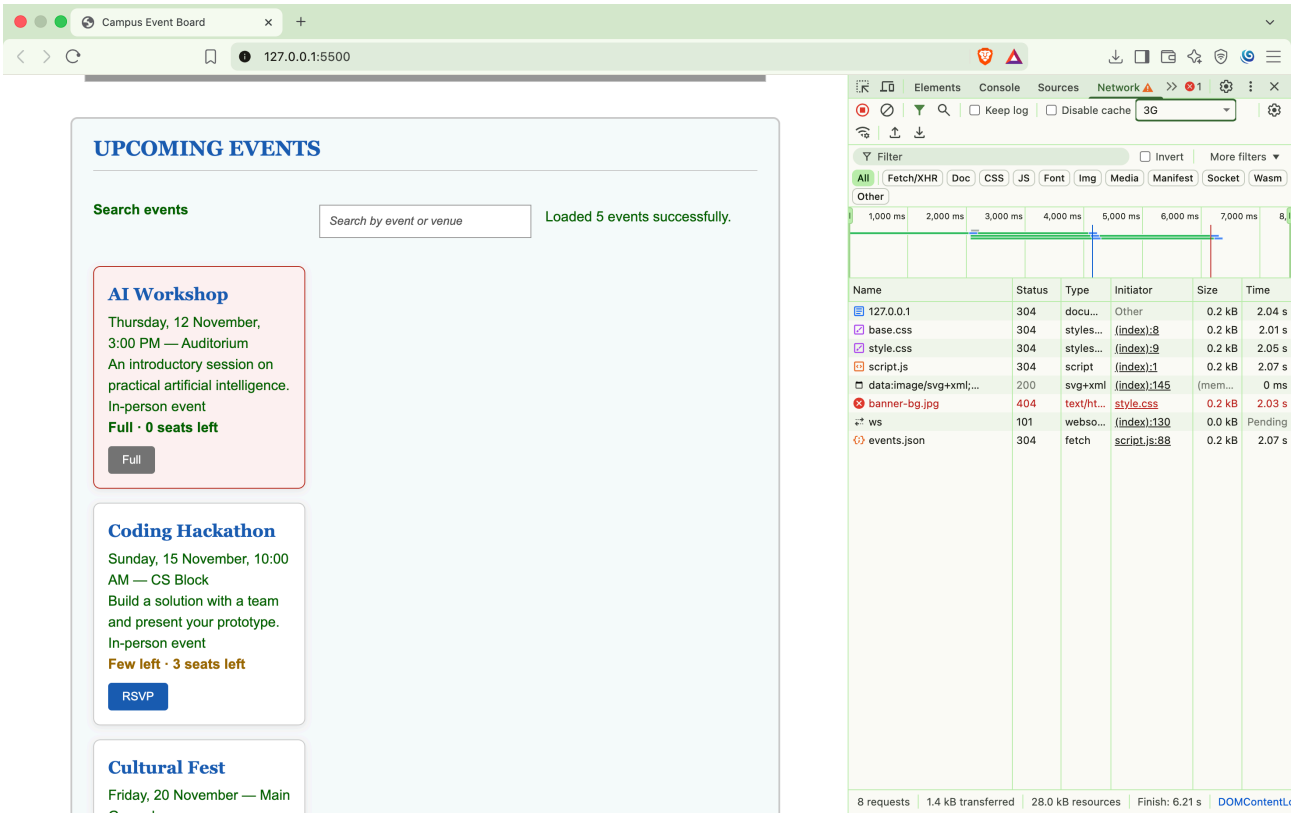

## Screenshot 6: Fetch API – Loading State

Shows the page while the events are being requested. The loading message is visible, demonstrating the loading state before the event data has finished loading.

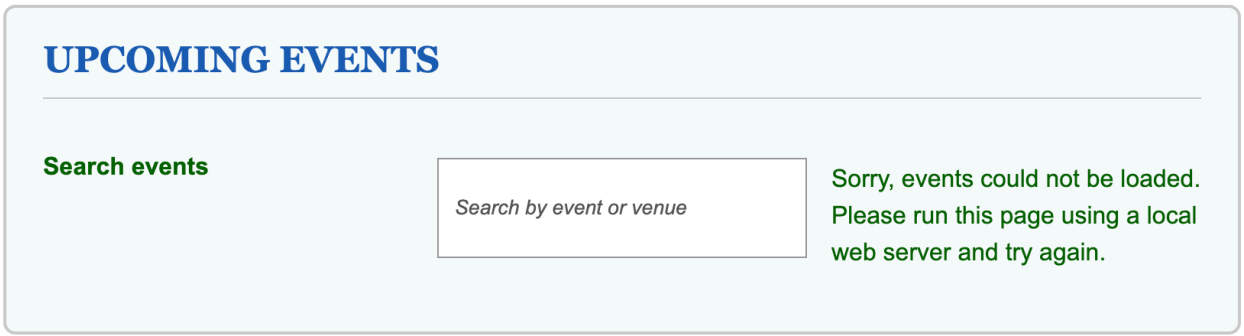

## Screenshot 7: Fetch API – Successful Loading State

Shows the events after the fetch request succeeds. The event cards are displayed and the page reports that the events were loaded successfully.

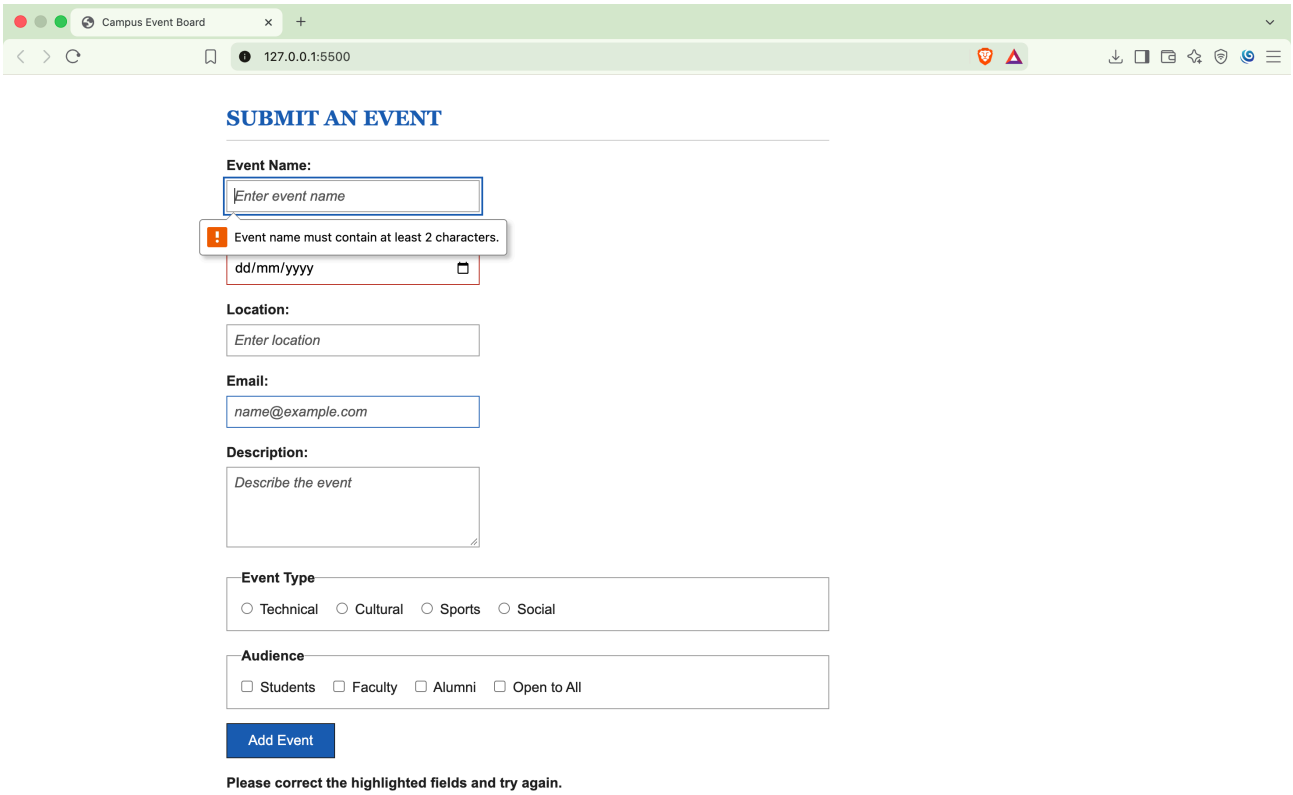

## Screenshot 8: Fetch API – Error State

Shows the error message displayed when the events data cannot be loaded. This demonstrates the error-handling state of the fetch operation.

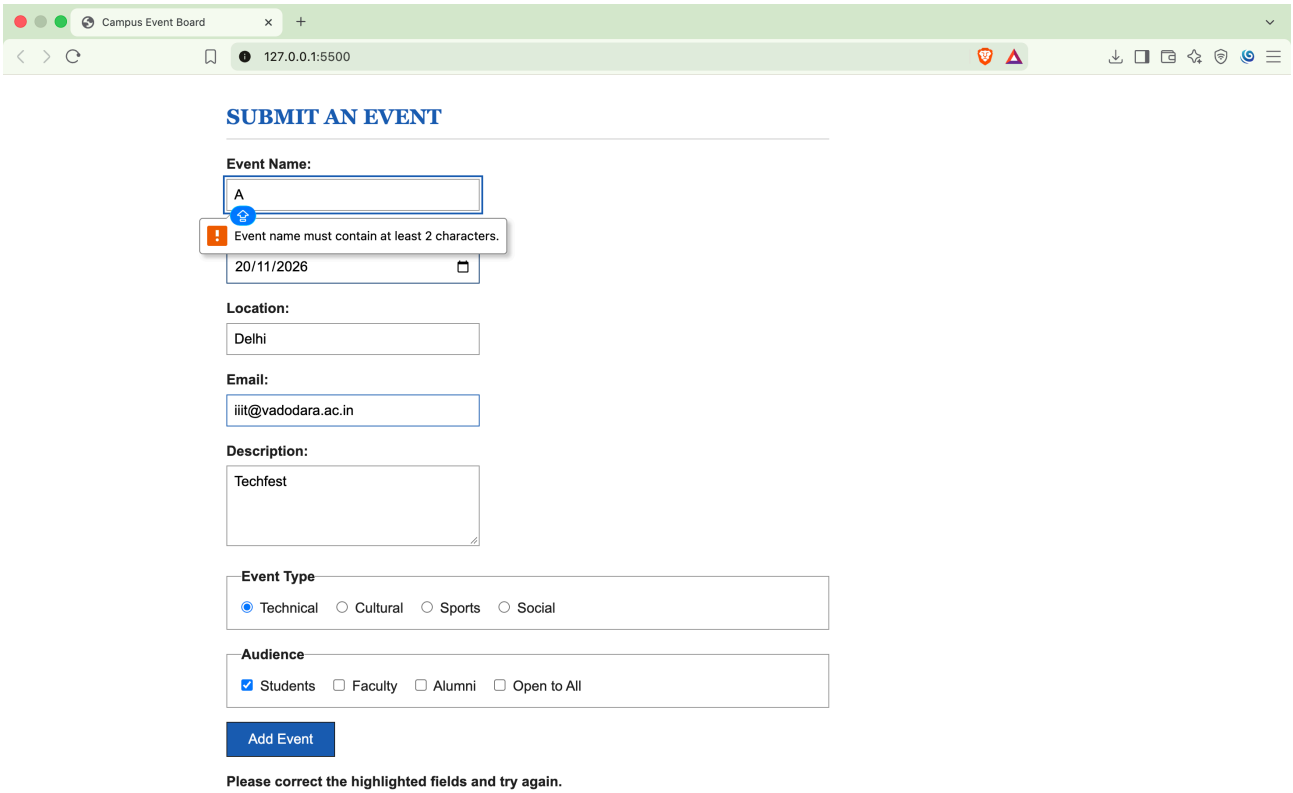

## Screenshot 9: Form Validation – Empty Event Name

Shows the form's custom validation message when the Event Name field is left empty. The message explains that the event name must contain at least two characters.

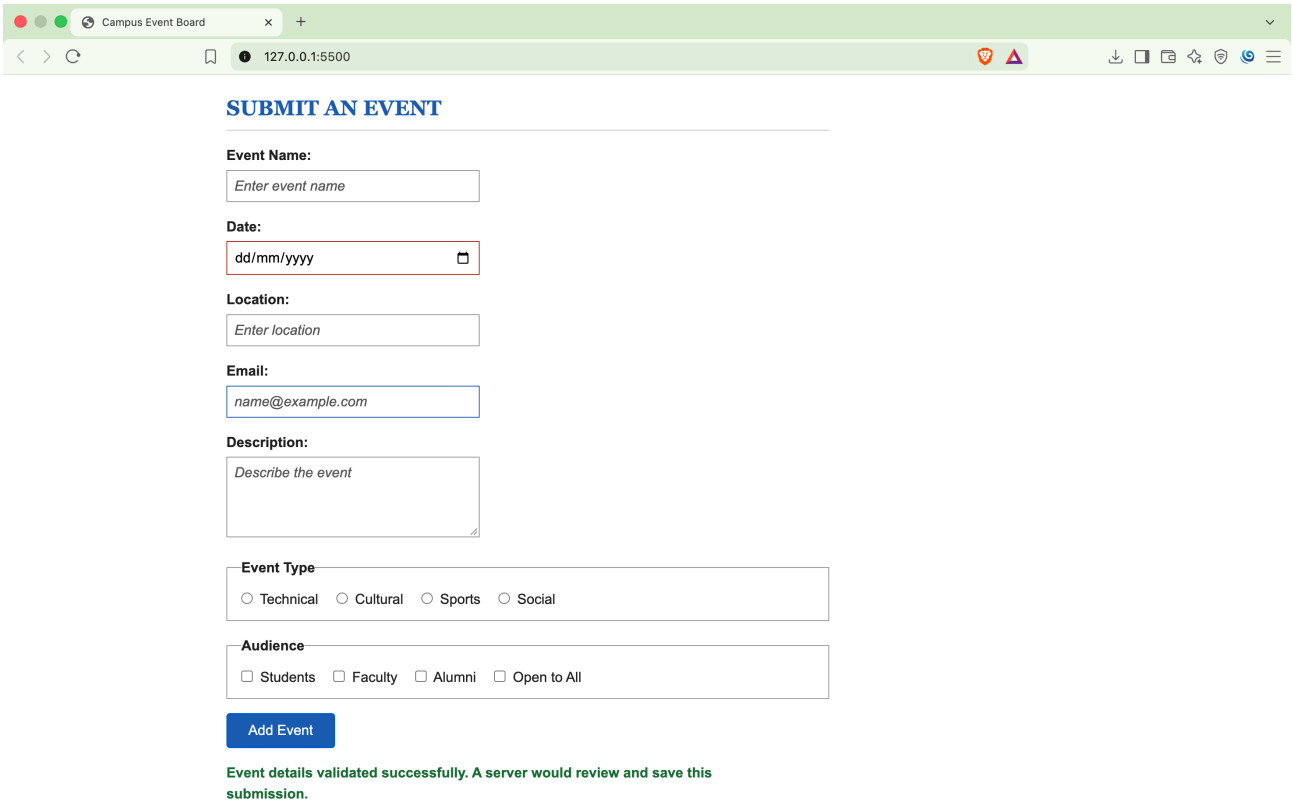

## Screenshot 10: Form Validation – Invalid One-Character Name

Shows the custom validation message when the Event Name field contains only “A”, even though other form fields have been filled in.

## Screenshot 11: Form Validation – Successful Submission

Shows the form after valid event details are entered and accepted. The green confirmation message indicates that the details passed client-side validation.

## Screenshot 12: JavaScript Console – Event Data and RSVP Clicks

Shows the browser Console displaying the Event Board message, the five event details logged by JavaScript, and RSVP click messages for selected events.
